

# COUNTER SHEETS

The scenarios in this supplement often require the use of counters and markers to represent key objects in the mission. While a set of fully modelled objective markers provides the best gaming experience, this is not always possible. A variety of printable counters have therefore been provided here.

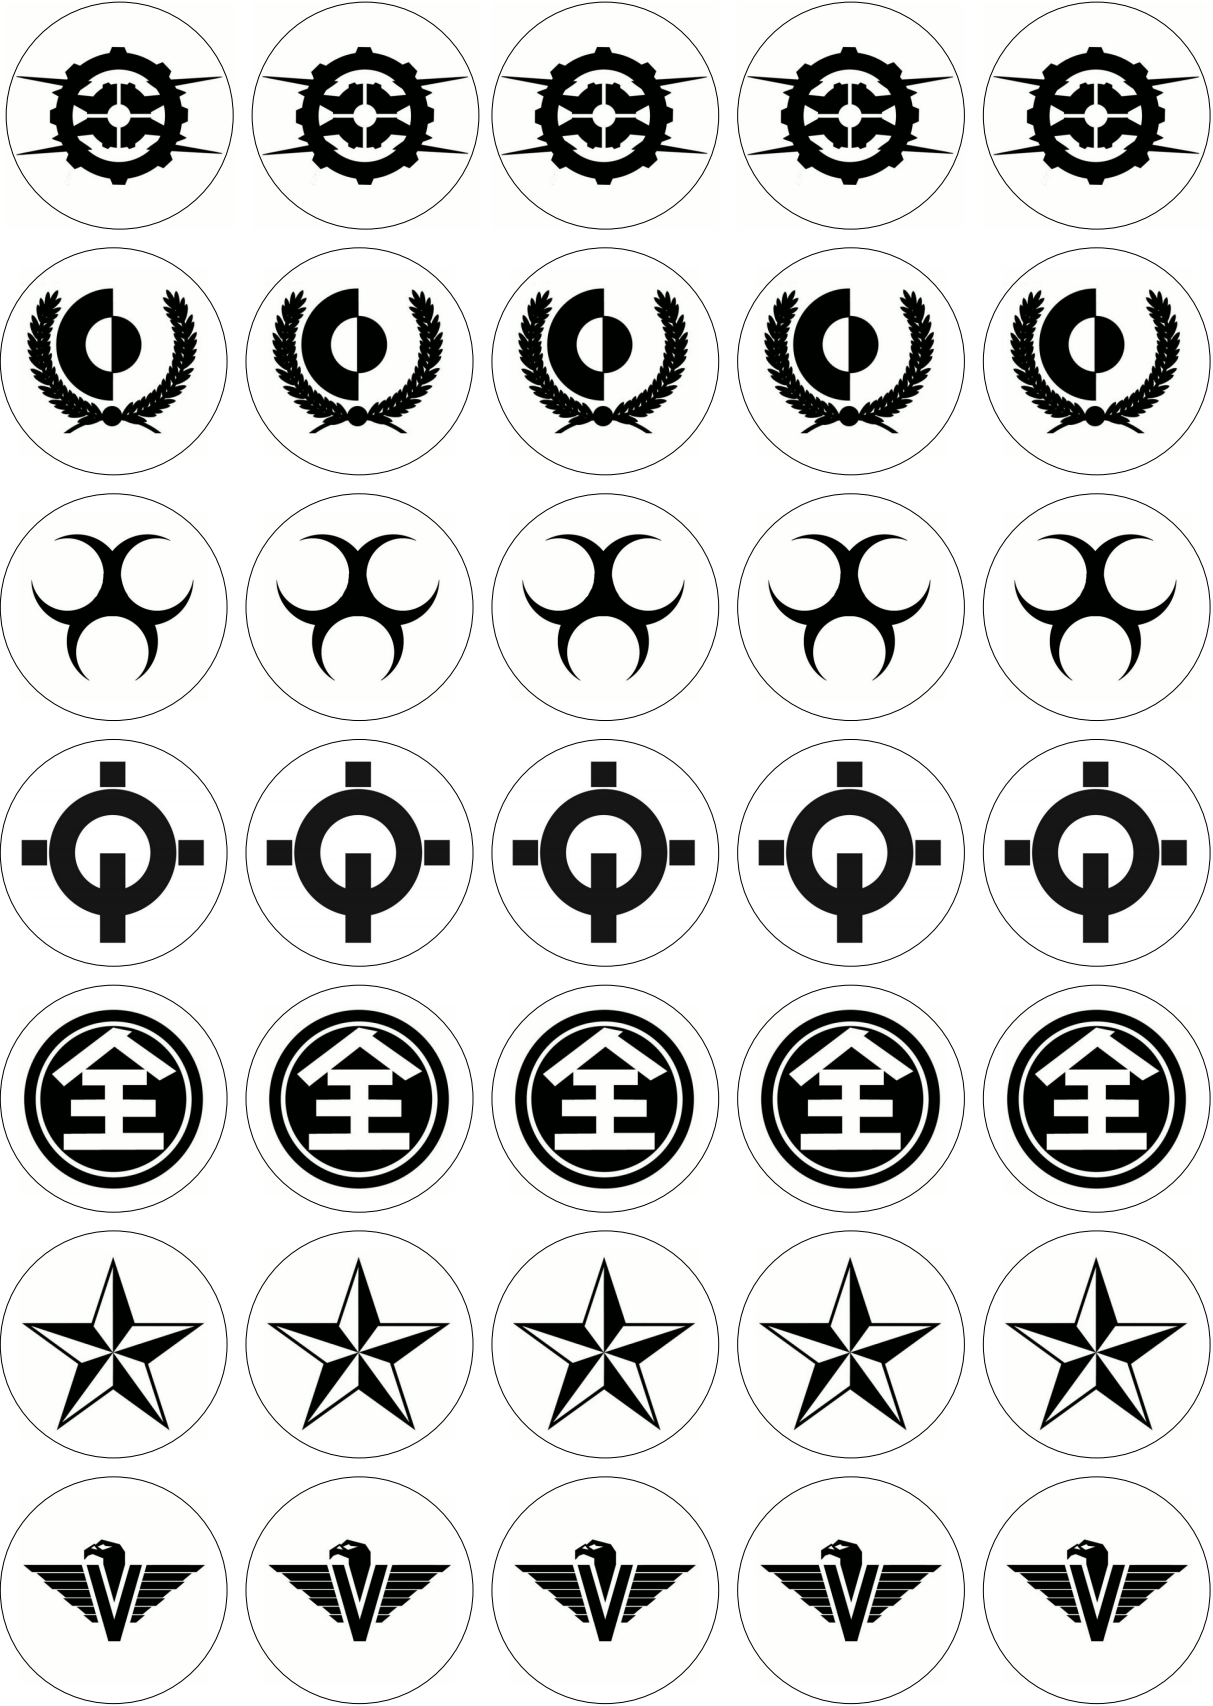

## Small Objectives (20mm)

These can be glued into the top of a 30mm base for small objectives.

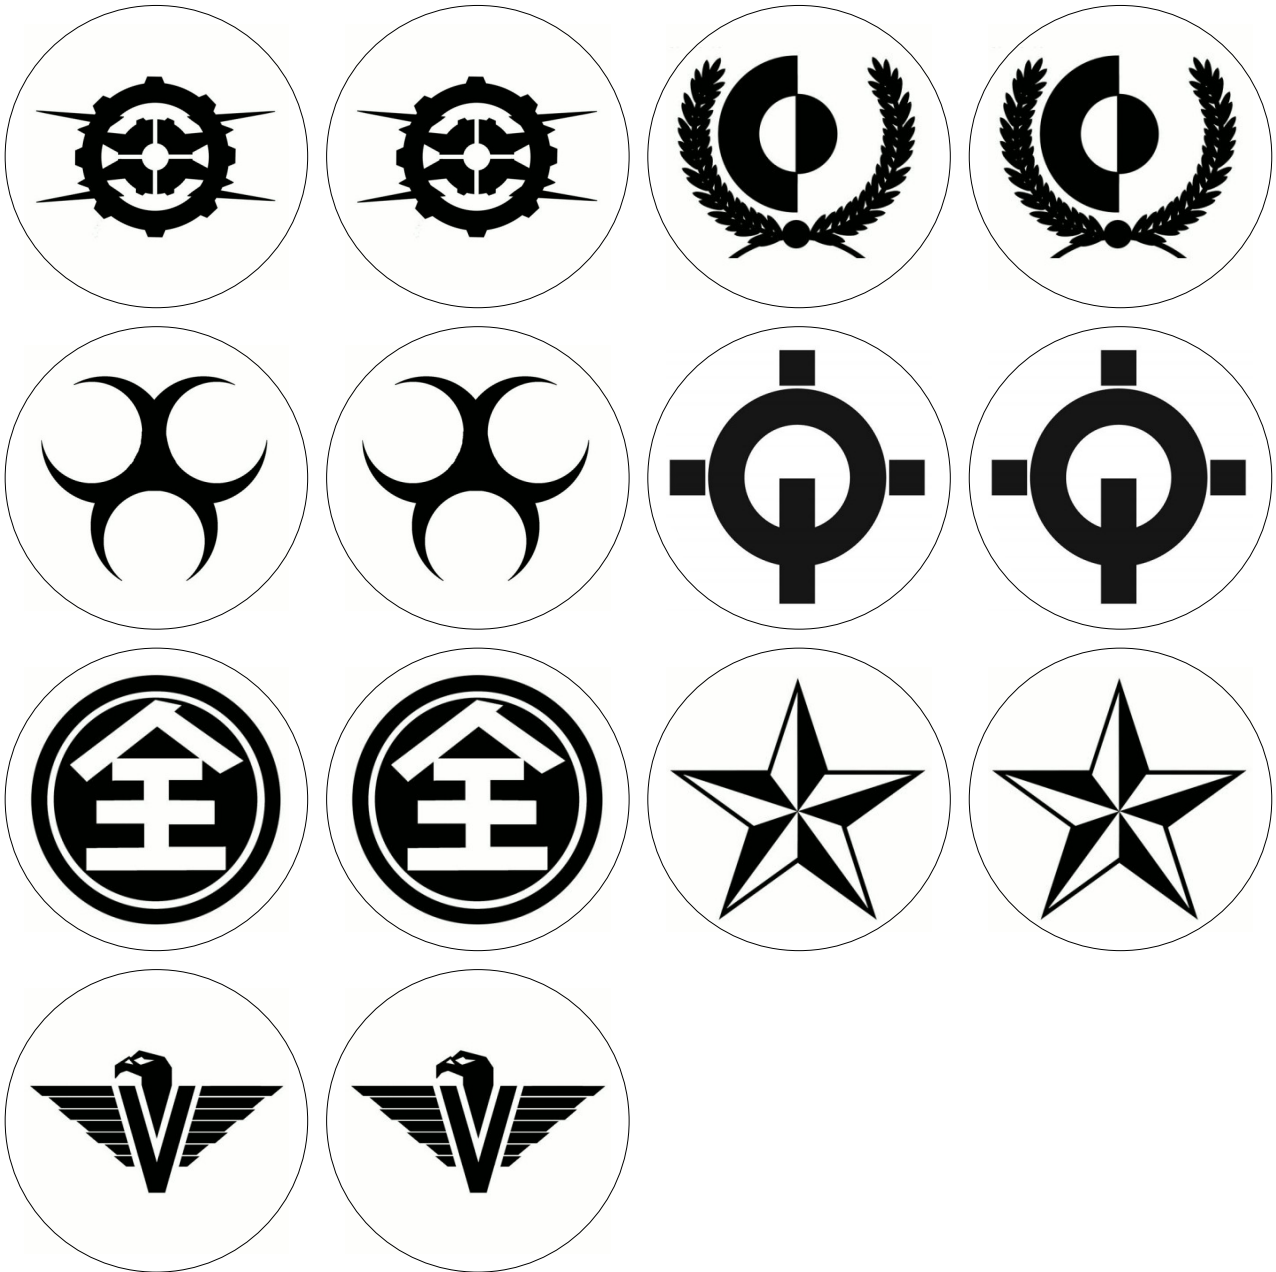

**Small Objectives (30mm)**

These can be used in place of 30mm (small) based objectives, or glued into the top of a 40mm base for medium objectives.

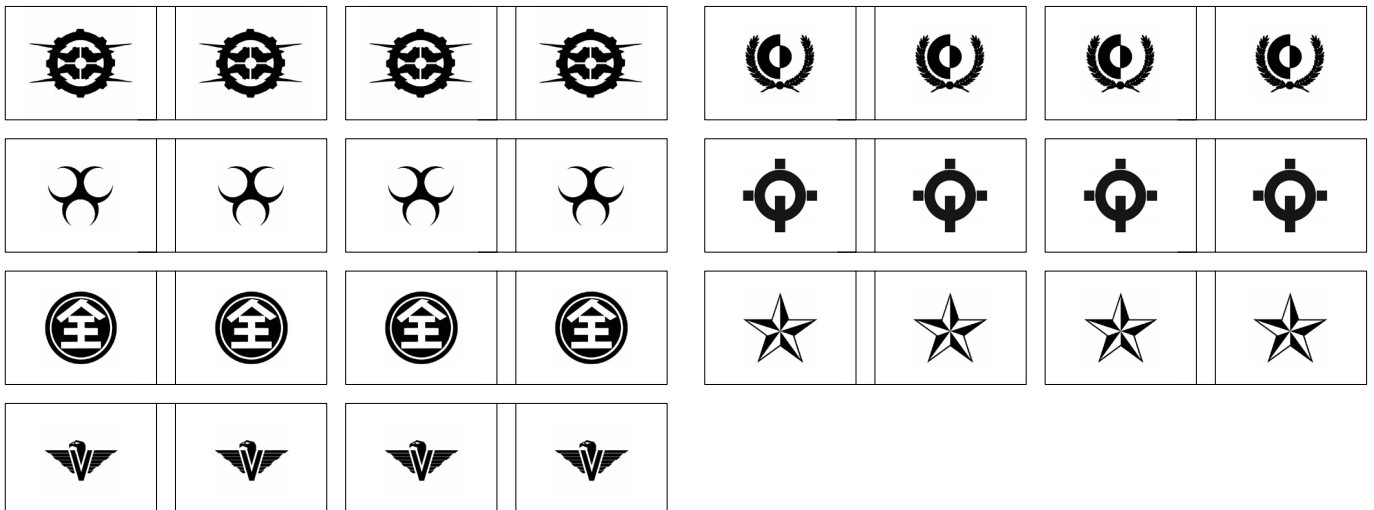

### Medium Objectives (40mm)

These can be used in place of 40mm (medium) based objectives, or glued into the top of a 50mm base for large objectives.

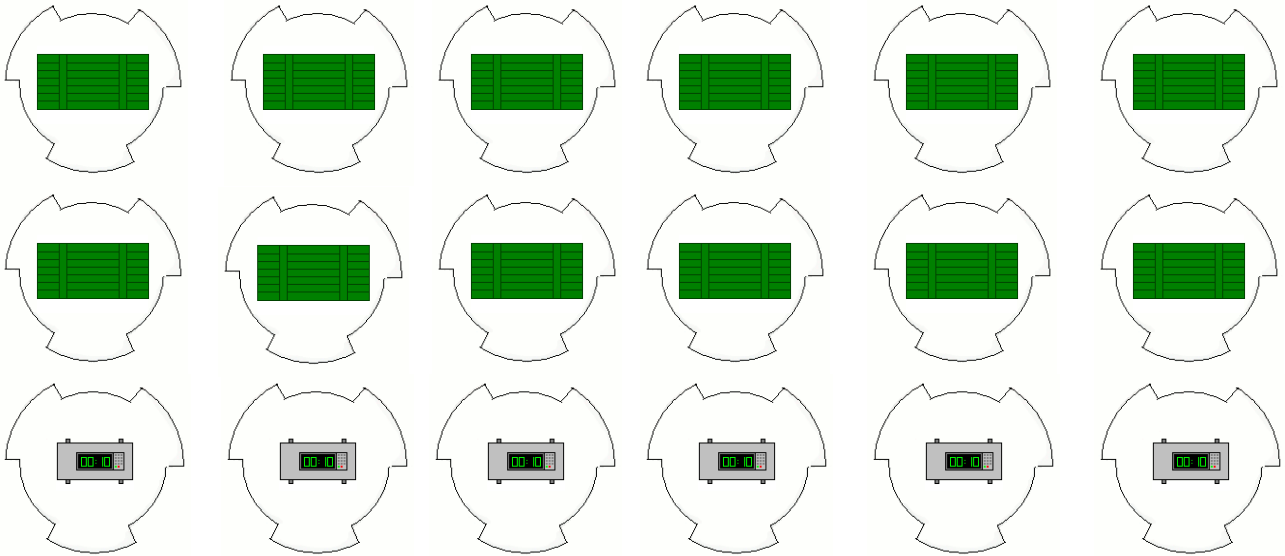

### Flags

### Small Counters

These counters are the same size as the plastic counters from the the Order Counter packs, and are suitable for representing loot counters, demo charges and so on.

### Large Objectives (50mm)

These can be used in place of 50mm (large) based objectives.
